

Fall-Inspired Spa Treatments in Phoenix

Written by Samantha Stull

Now that fall is finally in the air and pumpkin spice is everywhere, it's the perfect time to incorporate pumpkin into your beauty routine. While the tasty flavor is great for your coffee and cakes, it can also do wonders for your skin. According to *We Do Men: The Man Spa* owner Stacey Grondahl, pumpkin is jam-packed with natural vitamin A, which makes it powerful for anti-aging and killing acne and bacteria on the skin. Here are five great spas offering pumpkin treatments in the Valley this season.

We Do Men: The Man Spa

We Do Men offers a men's peel called The Sake Bomb (\$81), but for those looking for something a little less aggressive, The Pumpkin Sake Bomb (\$71) is the way to go. It's a gentler version of the popular peel and enhances the skin's hydration. Spa owner Stacey Grondahl offered the peel seasonally last year, but kept it year-round because of its popularity. Although Grondahl's spa is catered to men, she also serves their women, and said that this treatment is just as popular among women as it is men.

"Pumpkin is not just a generic holiday thing, but a really awesome thing for your skin all year round," Grondahl said.
