Grooms tend to be an after thought when it comes to planning a wedding. Grooms can add a lot of fun and personalization to your event so let them have some say! Some of the best weddings we have planned have incorporated a few fun elements that were important to the groom. So brides, I know it's easy to shake your head and say "sure honey", but listen up! You may just in fact get something from him that will make your event even more memorable. Grooms are always asking us for suggestions on what they can get the guys to say thank you. Here are some fun ideas:

Golf Shoe Bag

Golf tends to be the one activity here in Arizona that all grooms take part in during their wedding weekend. So how about giving your groomsmen something they will actually use more than once. This golf shoe bag from Wisteria is the perfect thing to protect their clothes from their worn and dirty golf shoes.
