

Spend a little extra time in the morning with your kids and do something fun with their hair. Whether it's a braided style for the girls, hair chalk or a little spiky motif for the boys, they will appreciate the individual morning attention and it will make them feel special throughout the day.

Chalk it Up: Temporary Hair Color

One of the most popular hair trends right now is chalking hair. It's fun, temporary and very in-style! You don't need to buy the expensive "hair chalk" that is currently marketed, all you need is a box of soft pastels from [Michaels](#) for about \$5.00. Note: Make sure you DO NOT buy the oil-based pastels.

Here's a how-to video on how to chalk hair:

Braids, Braids and More Braids!

Boys' Hair Styles

A little pomade goes a long way with my boys' hair. You can spike it up, give it texture and volume. Shhh.... my little guys like their hair being messed with just as much as my girls!
