

A truly great person and someone we have personally known left us last night in a tragic accident. Dr. Richard Pavese, a Board Certified Plastic Surgeon in Tempe, died after being struck by a car Tuesday evening. He had been practicing in Arizona for over 27 years.

“He was more than a great doctor to many. This is a true loss for our community. He was a leader in his field who set some of the standards and was always a man that would listen to you and share his wisdom.” says Michael Dee, publisher of Arizona Foothills Magazine.

1948-2010
Rest in peace.
