

Mirabel Remains Scottsdale's Premier Private Golf Club

Written by Claire Perkins

Mirabel, the award-winning private golf club in Scottsdale, has been uniquely member-owned and controlled since 2009. The Club prides itself on the level of service it provides and makes member satisfaction a top priority. In fact, Mirabel consistently scores more than twice the national average in satisfaction ratings. The professional staff cares about its members, knows them by name and works diligently to tailor services to each member's individual preferences as much as possible.

In a time when many golf clubs are facing financial challenges and struggling to increase membership numbers, Mirabel is financially sound and actually lowering the number of available memberships. To maintain the highest level of service and close-knit atmosphere members enjoy, the Club recently voted to lower the total number of golf memberships from 350 to 275 and social memberships from 125 to 50.

Member benefits include access to the award-winning Tom Fazio golf course, which is one of the most honored private courses in Scottsdale. In addition to top notch golf, the Club boasts championship-caliber Har-Tru clay tennis courts and comprehensive tennis programs, multi-sport fitness facilities and a resort-size swimming pool with private cabanas. Members are also granted exclusive access to the Desert Lodge Clubhouse. The 34,000 square-foot, Frank Lloyd Wright inspired, clubhouse was built to complement the beautiful desert surroundings and its amenities are suited for an active lifestyle. The Desert Lodge offers exceptional fine and casual dining, full service medspa and social activities year round.

Mirabel is located in North Scottsdale on 700 acres of Sonoran Desert and sits 3,000 feet above the Valley. The elevation provides amazing views of the surrounding mountains and spectacular sunsets. The Club has seen a steady increase of new members and those interested in membership should act fast as there are less than fifty memberships remaining. Those interested in a social membership may find themselves on a waiting list. Property ownership within the community is not required for membership.
