There's no place like home. So why do we love escaping to incredible resorts, restaurants and lounges? The delightful furniture and ambiance, that's why! We've enlisted the help of Today's Patio to determine the best pieces to create the ultimate party or relaxation destination- in our own backyard.

A modular **Plantation Sectional by Gloster** like this robin's egg and chocolate blue set could make an old-school pool look resort-chic. Take a seat with a martini and you'll feel instantly transported to the rooftop of a glamorous beachside hotel. The weatherproof wicker frame is infused with UV inhibitors and Sunbrella fabric banishes fading. The modular design allows you to customize the piece to fit your own chic setup.

A game of croquet on a perfectly-manicured lawn, drink cart of refreshing Pimm's Cups and this **Tiburan set by Terra Patio Furniture** make the perfect backyard vignette. Not a croquet fan? The white aluminum frames with circle cutouts and fresh green cushions are a sweet addition to any patio. As with many other pieces, the finishes and cushions are fully-customizable.

We're sleepy. And we can think of no place better than atop the **South Hampton Round Chaise by Lane Venture** to nap- poolside, gardenside or on a balcony. Outfitted with weatherproof wicker, cushions, welting and pillow fringe, there's no need to worry about the most comfortable furniture you own fading in the sun.

For a quick way to a dash of Hollywood Regency in your life, try the **Chelsea set by Terra Patio Furniture**. The teak outdoor furniture is approachable but proper, offering a versatile design and comfort through plush cushions and fabrics. Customize the dining set, club chairs, ottomans, sofas and occasional tables with different finishes and fabrics to make the set your own.
