Wow! Our June cover has made someone very angry...

We received the following e-mail this weekend:

"Where are your family values? I am very upset to see the photo you put on the cover of your Arizona Foothills Magazine. Where does 'SOPHISTICATION' apply in that picture? This type of soft porn is not welcomed in my mailbox or home. I insist you remove my address from all mail you are affiliated with."

Maybe this reader is seeing something we're not. We see a pretty model in a swimsuit, a welcome and expected sight in the summertime. There are much more risque suits to be found at local resort (and neighborhood) pools.

What do you think is making her so mad?
