The Phases

Las Palomas is split into two phases, each featuring five buildings full of luxurious suites ranging from one bedroom to five bedrooms. Each room is uniquely decorated, as they are privately owned and taken care of by the owners and friendly staff. Each unit features a private balcony with a view of the beautiful beach, a laundry room, and fully stocked kitchen.

The Pools

Each phase of the resort features its own lazy river (rafts are available upon request), a water slide for children, a hot tub, a swim-up bar, and multiple pools that are heated when necessary. People watching, lounging by the pool, playing with the kids, and watching the beach from a sparkling pool with a negative edge are all activities that can be enjoyed at the resort.

The Food

Each phase features a full-service bar with almost any cocktail you can think of and delicious poolside eats. Guacamole, nachos, burgers, and delicious beef tacos are among the best menu items. Servers are also available for poolside service or service on the beach. Each phase also features a fine dining restaurant, Citron and La Maria Bistro, for a gold-medal dining experience on vacation.

The Amenities

Las Palomas features its own gym, with elliptical machines, treadmills, free weights, and weight machines. If running on the beach is not your thing, the gym provides a great space for you to get fit while on vacation. Friendly, helpful staff that will cater to your every need also accompany the resort.
