

Award-Winning Patio Pools & Spas

Written by Written by Amy Strand

Tucson's own Patio Pools & Spas, the oldest pool and spa company in Southern Arizona, continues to create original, quality designs after 40 years in the business. Not only are these designs celebrated by their clients, but by the experts as well.

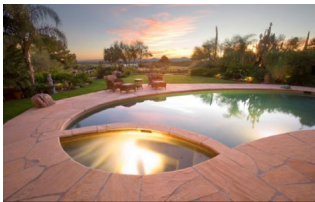

What's better than dunking yourself in a pool of pleasantly chilly water after a long day in the desert heat? Not only are swimming pools a way to relax and chill out, but a great pool design can make for a serene and stylish outdoor living area. That's why we're proud to say happy 40th anniversary to Southern Arizona's premier pool and spa builder, Patio Pools & Spas. Not only has this Tucson-located company become the largest pool and spa builder in Southern Arizona, but they were awarded for their innovation and superior design numerous times at the International Design Competition that took place this past March.

Having been sponsored by the Master Pools Guild association (which Patio Pools & Spas has been a member of since 1972) to honor the best pool and spa builders around the world, the International Design Competition awarded Patio Pools & Spas three gold, four silver and one bronze medal in the new and remodel residential categories as well as the semi-public category. The acquisition of these prestigious awards makes for a total of over 150 awards now earned by Tucson's Patio Pools & Spas.

In addition to their most recent recognitions, Patio Pools & Spas—who have built more than 17,000 swimming pools and installed more than 9,000 spas around Tucson since their 1969 opening—were gifted with a bronze award by the Association of Pool and Spa Professionals in the semi-public pool category for a popular Tucson resort pool in December.

"As always, these awards are only possible by the creative visions of our extraordinary design team, our excellent in-house construction team that supports our meticulous construction practices, but most importantly our clients, who trust us with making their backyard dreams complete," said Mark Ragel, president of Patio Pools & Spas in a recent press release.

In addition to building brand new residential swimming pools and spas, Patio Pools & Spas also specialize in renovations, commercial projects and products for your pool and outdoor living space including patio furniture, barbecues, pool chemicals, supplies and more.
