This Strawberry Daiquiri Popsicle recipe is the perfect poolside treat!

Strawberry Daiquiri Popsicles

(Adapted from [Eat.Drink.Love.](#))

Ingredients:

1 pound hulled and halved strawberries

½ cup rum

1 lime, juiced

1/3 cup agave nectar

Directions:

1. Put all ingredients into a blender and blend until smooth
2. Pour the mixture in to the Popsicle molds and freeze for 4 to 6 hours or overnight.

Notes:

You could easily swap out or add another fruit to the strawberries like white peaches, pineapples or blueberries. You can also make these virgin for the kiddos and switch out the rum for apple juice.

Also, Ikea has some great popsicle molds right now if anyone is looking!

Have a great weekend!
