"Unintended Light"

Max Hammond

February 25-March 20, 2012

Artist reception: Saturday, February 25 1:00-5:00 PM

Location: Bonner David Galleries

Brilliant abstract artist Max Hammond will showcase his newest works emphasizing "unintended light," that light which the artist captures through the layering of color in his paintings. Witness the depth of meaning and the uniqueness of his texturing as you view each one of these innovative works. Though well known for his abstract paintings, recently Hammond has been adding the figure very subtly into some of his work, incorporating a new depth of richness to his art. The artist will be at the gallery to meet clients from 1:00-5:00 on February 25th then a special reception will be held at AZ Wine/Atlas Bistro at 2515 N. Scottsdale Road where additional new work will be on display.
