No matter where one ventures in the popular residential community of Arcadia, it doesn't take long before one will see a Sage Luxury Home. Sage Luxury Homes is seeing a demand for remodels in the ever growing Arcadia area. Sage Luxury Homes has just begun further renovations set to take place over the next couple of months in the Arcadia area.

Sage Lentz began building homes in the East Valley in 2005, and has since created some of the most inspiring and beautiful homes around the Valley, with several in Arcadia. "More and more people are wanting to stay and buy in this great location, and if they cannot find that rare lot they then ask us to remodel," said Sage Lentz of Sage Luxury Homes. The latest project by Sage Luxury Homes in Arcadia will be two 7,000 square foot homes, one designed contemporary ranch style and one designed Santa Barbara style. It can be assured these homes will leave Arcadia even more beautiful.
