There's nothing better than sporting off a sun-kissed glow during the summer season. However, getting and maintaining that sun-kissed glow is another story. Taking 15-40 minutes everyday to achieve a certain tone is a job in and of itself. And let's get real here, who truly has the patience to constantly flip from front to back to assure an even tan? If basking in the desert rays isn't your ideal approach than step away from the baby oil and metallic UV reflector and check out some of the Valley's best tanning salons. You will get your sun-kissed glow without ever having to be kissed by the desert's sun.

### Kist By Mist Tanning

Located in Tucson, Kist by Mist assures their clients that customer service is their forte. Their Certified Tanning Consultants guide you through your tanning process so you can achieve your idyllic sun-kissed glow. Kist by Mist offers two different types of spray booths to fit your tanning expectations: The MyMist and the VersaSpa System. The MyMist spray uses an airbrushed motion while guiding you through the process with automated voice instructions. MyMist allows you to customize your tan from light, medium or dark and provides enhancer as a bonus for pH balance and longevity. VersaSpa System is another spray booth at Kist By Mist that offers three different types of spray with three shades of darkness. You can choose to tan your face or legs or choose to experience the VersaSpa Multi Session that includes priming pre-spray, a bronzing spray and a moisturizing spray. Also accompanied by the two spray booths, Kist By Mist has the top-of-the-line airbrushing system. Airbrush technicians use a premium solution in a variety of shades to give you that radiant glow. Once you experience the art of airbrushing you will never go back to your poolside tanning days. <http://kistbymisttanning.com/index.html>.
