Maricopa's very own [Elements Conference and Event Center](#) holds the perfect modern interior yet intimate and naturesque exterior setting for a ballroom wedding and reception that will keep your guests cool – and all eyes on you.

As your guests approach the venue, they are greeted with a charming area with beautiful Italian tile and shade trees with sparkling lights surrounded by stunning flowering bushes. Perfect for that one-of-a-kind scenic backdrop.

The gorgeous space consists of three spacious rooms; the Air, Fire and Water banquet rooms for a total of 11,000-square-feet of indoor and outdoor space. The Earth Room is a striking suite that accommodates up to seven people in a chic sitting room which includes a shower and bathroom accommodations, perfect for a bride getting ready for her big day.
