A little home revamping?? Yes, please! I'm using the new year as an excuse for some homey upgrades, and you should too.

Here are some new, cool finds your house might enjoy in 2019.

[The Moon Pod](#)

It's a beanbag, reinvented. The anti-anxiety ergonomic chair delivers a full-body weightless experience... soft and stretchy, filled with high-density beads. Mimicking the sensations of Flotation Therapy, it's said to reduce stress, depression, and insomnia.

[Bertini Baby Furniture](#)

Here's an idea for a small-sized kids' room: horizontal furniture like Bertini's rustic Pembroke Bookcase and matching Chifforobe; it's traditional and timeless. The bookcase has spacious shelves and a bottom drawer; the corresponding classic wooden armoire has five drawers and adjustable inner shelves. Available on Wayfair and Buy Buy Baby.

[Etsy Shop: Pretty Unique Wood](#)

Have a bunch of small toys floating around the house? Yeah, me too. Now you can creatively bid farewell to tiny toy clutter. I found these adorable shelves at Etsy shop: Pretty Unique Wood. The handmade units display and stores your kids' trinkets - trains, figurines and more. Every custom model comes in natural wood or painted... choose from a three-piece train set, race car, or baby carriage.

[Lorena Canal Rugs](#)

Dress your floor in Lorena Canals rugs, like their elegant and youthful Ombre style. Made of all-natural cotton and dyes, it's super cozy and safe to snuggle on. The best part: Lorena rugs can be machine washed AND dried! Life saver!

[Wexel Art](#)

For décor, bring your frame game to a new level with Wexel Art. The innovative acrylic floating frames are ideal for photos and kids' art... you can change the picture in seconds, thanks to its super strong magnets. Wall mounts come in silver or gold.

[Dyson's Pure Hot + Cool Link](#)

To breathe easy: Dyson's Pure Hot and Cool Link: a fan, heater and purifier all in one. This sleek concoction captures particle pollution, like mold, bacteria, and pet dander. It doubles as a portable air conditioner and heater, letting you set your preferred temperature preference.

[Ring Alarm](#)

Stay safe with the Ring Alarm, a system that offers affordable, DIY, home security with simple set up. The alarm set connects to the Ring App, so you'll always know what's happening at home. And new for 2019, the Ring's Flood & Freeze Sensor and a Smoke & Carbon Monoxide Listener.

[Zinus Bed](#)

Honor someone you tend to forget- yourself. Gift your room a Zinus bed. The ultra-modern Upholstered Tufted Platform Bed Frame looks great and is super comfortable. And get this... it costs less than \$300 for a king! High quality, sturdy, and easy to assemble.
