The weekend of April 12 to April 14 features plenty of fun for your family's Disney devotee, Cirque fan, history buff and animal lover.

Friday:

Disney On Ice Presents Worlds of Enchantment

Rev up for non-stop family fun with four of your favorite Disney stories when [Disney On Ice presents Worlds of Enchantment](#) comes to Talking Stick Resort Arena. This action-packed ice spectacular showcases beloved characters from Disney•Pixar's "Cars," "Toy Story 3," Disney's "The Little Mermaid" and "Frozen." There will be performances April 11 to April 14.

Cirque Du Soleil's AMALUNA

[AMALUNA](#) invites the audience to a mysterious island governed by goddesses and guided by the cycles of the moon. The captivating and colorful love story features a mostly female cast, for the first time ever, and an all-women band. AMALUNA takes place through April 14 under the big-top tent near Glendale's State Farm Stadium.

Rock The District

For 10 years, concert and festival [Rock The District](#) has supported Cave Creek schools and launched careers of young musicians. This year, one of those young musicians, Cali Rodi, returns to the RTD stage at Carefree Sundial as a headline performer after signing with Keith Urban's publishing company. Rodi, Chad Freeman and Ryan Simms (pictured) join the stage with student bands at the family-friendly event on Friday, April 12, and Saturday, April 13. Tickets are only \$10 for students and teachers and \$20 to \$75 for general public. Kids under 5 get in free.

Bodies Revealed

The overwhelmingly popular [Bodies Revealed](#) exhibit is open for a limited time at [OdySea in the Desert](#) and explores the human body in an intimate and informative way. The 12,000-sq.-ft. exhibition will remain on display until April 21. Bodies Revealed gives an in-depth view of the complex and intricate network of internal organs and systems in a very up-close and personal way, with more than 200 whole and partial preserved human body specimens. There are nine self-guided galleries, each one providing a detailed look into a specific part of the body, its functions and its importance to the rest of the body.
