Elementary school is in session and that means parent-approved schedules are in full swing. Between getting dressed, eating breakfast and getting organized, one mishap can cause you to run late. It's a miracle the kids make it to school every day on time. Needless to say, parenthood is hard work but don't get discouraged; the Valley has great companies making life easier for moms. Here, you will find transportation and nanny services that take the hassle out of day-to-day needs.

[HopSkipDrive](#) is a safe, convenient and dependable transportation service just for kids. This tech-enabled transportation solution is both an app- and website-based ride service for children starting at age 6. Rides can be booked as little as eight hours in advance, and parents can create customizable pickup or dropoff instructions. Parents are included in the process every step of the way with progress alerts and monitored real-time videos from the Safe Ride Support Team. HopSkipDrive also allows school administrators to arrange student trips with their service.

The CareDriver hiring process is focused around safety. Drivers must have at least five years of caregiving experience, pass a background check, driving record check, a 19-point car inspection and complete a certification process successfully to be approved for the platform. In addition, the support team is staffed with former 911 operators, EMTs, child care specialists and parents to ensure every rider is delivered safely to their destination.

[Trusting Connections Nanny Agency](#) is an award-winning nanny agency connecting families, churches, organizations and companies with exceptional nannies, sitters and other childcare staffing professionals, 24/7, 365 days a year. An agency built on the firm belief that parenthood should come with a tribe, Trusting Connections is paving the way as a market leader committed to raising personalized care standards. Their portfolio of services includes flex memberships, permanent nanny placement and corporate child care available at resorts, special events and church. In-home consultations make it easy to connect your family with the best match possible.

The nanny hiring process is held with the best standards in mind. As members of the International Nanny Association, they are committed to completing a thorough screening process for new hirers. Candidates must have at least two years of child care experience, a clean driving record, become CPR-certified, pass a background check, complete a competency test and much more.

Get the kids out the door faster with a team of specialized child care providers in your corner.
