Vibrant Marble Eggs with Shaving Cream

Grab a can of shaving cream and foam out a nice layer onto a plate. Then, use food coloring to design a pattern on top of the shaving cream to dip the egg into. Once your design is complete roll the egg onto the design to transfer the pattern onto the shell and allow it to dry. This will create a unique marble design on the egg. For other tips for creating marble eggs, click [here](#).

Freckled Eggs with Rice

Mix some food coloring into a bowl of uncooked rice and mix. Once you have the color you would like, go ahead and dip the egg into the mixture to transfer the pattern onto the shell. The egg will need time to dry but will have a fun, freckled design. For more details, click [here](#).

Watercolor Eggs

Ditch the dye, and grab a watercolor palette and brush and paint your own design. The lightweight paint will allow for soft and vibrant colors for you to design with. For some watercolor design inspo, click [here](#).
