Has your child outgrown their seat? Is it expired? Has it been in an accident?... Don't throw it out – RECYCLE IT!

NARPRO (Network of Auto Repair Professionals) is collecting old, expired, and damaged car seats which volunteers will take apart for proper recycling. Car seats don't last forever, and over time their components will break down, especially in the hot Arizona sun.

Older car seats or those that have been involved in an accident may not have visible damage, but they should not be used. This annual event helps those with older, expired, or damaged car seats get rid of them in an environmentally-friendly way, by keeping them out of vehicles and landfills.

Do you have an old or damaged child car seat? NARPRO wants to help recycle it! Anyone can drop off car seats that need to be recycled at one of the participating Network of Neighborhood Auto Repair Professionals shops from now until April 16th, 2021. Find a participating NARPRO location at:

[NARPRO.com/find-a-shop](https://www.narpro.com/find-a-shop)

On April 17th Peoria Police, NARPRO shop owners, and volunteers will be dismantling the old car seats. They will recycle the plastic, metal, and fabric components separately. For example, elements of the fabric, padding, and straps can be used in animal shelters. Quilted fabric becomes bedding or chew toys for the animals. Long straps make free leashes. Clean Polystyrene foam (rigid foam) from seats can be recycled into an Earth-Friendly Block™. This yearly recycling project will take place at S & S Tire Shop and Auto Repair in Peoria from 8:00-12:00. (Not for public event, media welcome.)

NARPRO (Neighborhood Auto Repair Professionals): The Neighborhood Auto Repair Professionals (NARPRO) helps car owners find skilled and honest car repair shops. NARPRO only recommends independent, family-owned, full-service auto repair shops that have passed 26 rigorous tests. Visit [www.NARPRO.com](https://www.narpro.com) to find recommended shops near work or home. NARPRO is the easiest way to find an honest mechanic in the Valley.
