More About L&M Pop-Up Art Show

L&M Pop-Up Art Show is the collaboration between 2 valley locals, Cave Creek artist Michelle Penington and North Phoenix artist Laura Chapman of The Fischer Team. Michelle and Laura both have a distinct history in art and art shows; separately hosting art events in the valley for many years. By sharing similar passions and a fierce dedication to art, they decided to join forces in 2018 to form L&M Pop Up Art Shows.

Ultimately, they focus on creating small events in conjunction with local businesses. "Our first show was very successful and such a fun community event, we have decided to do these art shows with SNIP at least twice a year, so look for a Spring show next year," says co-owner Michelle. "There is tons of artistic talent in Arizona, so this is a new way to bring attention to it. We plan to have events all over the valley in the future," says co-owner Laura.

Laura is an artist and works in real estate. Recently, she also had a beautiful baby boy! As a full-time artist, Michelle is a mom of two teenagers. In addition, she is excited to have work on exhibit at SNIP.
