

3 Things: Living Edition

Written by Melissa Larsen

Now You Sea It

This new lighting collection does more than simply illuminate your space; its unique look makes an impression. Made with hand-worked wrought iron, fixtures in the **Uni** collection (which includes pendant, sconce or flush-mount lights) are inspired by the shapes and colors of sea life. Prices start at \$4,107. www.troy-lighting.com

Paints Of The Period

Benjamin Moore has partnered with The Colonial Williamsburg Foundation for the new Williamsburg Color Collection by Benjamin Moore. Developed using nearly 90 years of paint research, the 144-color palette comprises actual hues from the 18th and 19th centuries. Colonial Williamsburg's research team of historians and conservators examined period documents, paint samples, wallpaper and architectural fragments. The Benjamin Moore team then carefully studied pigment compositions of these findings in order to precisely match them using the latest scientific methods. The result is highly authentic paints that are true to the original hues. www.benjaminmoore.com
