Food, who doesn't like to eat mouth-watering food? What if you could also eat this tasty food and make a huge contribution to lives of many people? Well with an amazing day set up by Southwest Center for HIV/AIDS you can do both! On April 28, 2011 select restaurants will donate portions of the amount of money they make off of each meal to help in the fight against HIV/AIDS.

### How exactly does this work?

It's a very easy process; all you have to do is go to one of the participating food locations on the designated day April 28, 2011.

The restaurant will donate a certain percent of the bill you pay to Southwest Center for HIV/AIDS. Whether it be 25%, 50% or even 100% any little help can make a huge difference in the life of someone being affected by HIV or AIDS.
