"Building on a family heritage that spans more than four decades, Salcito Custom Homes continues to be guided by our firmly held values and by our commitment to our clients, to our projects, to our colleagues and to our employees."

"For nearly three and a half decades Salcito Custom Homes has been defined by consistency in service, attention to detail, project delivery, and consistent demand for our services. Our projects are distinctly built with the highest quality building products and are unmistakable in their fit, finish, and timelessness. With 300 projects delivered valley wide, 120 within the past decade, our portfolio is diverse and encompasses custom homes, renovations, commercial buildings and tenant improvements. We pride ourselves on providing the highest level of customer service in design-build, construction management, interior design, framing & trim carpentry and property management."

"More recently, over the course of the past 24 months, Salcito Custom Homes delivered 15 construction projects from as small as a 700 s.f. tenant improvement and as large as a 16,500 air-conditioned s.f. home. Through that time, we have increased our property management accounts and currently provide comprehensive services for 30 residences. In 2009 we started a framing and trim carpentry division, which through 2011 will have framed 15 custom homes and remodels. We are currently providing design/build and pre-construction services for several new projects that we are undertaking in Tempe, Paradise Valley, DC Ranch, Silverleaf and Estancia."

"We have been remiss in updating you on all that we have done and continue to do. Our new website, complete with a listing of our 200 most recent Arizona projects, will be up and running in early June, however, here is a quick glimpse of some recently completed projects."

Projects Completed in the last 24 months in the order from most recently completed:
