Maybe it's because I'm an Oregonian, but I love Earth Day. Here are some things you can buy that will make you happy *and* save the Earth.

- For every Ticket sold to the movie Earth before next Thursday, Disney will plant one tree. :)
- Today, 15% of every purchase made through LouisVuitton.com will benefit The Climate Project, Al Gore's climate awareness program.
- Cargo Cosmetics will donate \$2 from every item purchased from their bio-degradable [Plant Love](#) line to charity. Bonus, the packaging is recycled corn, the box it comes in is eco-friendly and embedded with wildflower seeds so you can plant it in your garden.
- Save \$5 today on reusable [Pura water bottles](#), which are super cute and keep you from littering landfills with your Fiji bottles.

What is your favorite Earth-friendly purchase? Let me know at cperkins@mediathatdeelivers.com.
