You're already the center of attention. But this beautiful Coffin & Trout ring, the newest piece the luxury jeweler has to offer, will keep you there!

This soft magenta hued Black Tahitian Cultured Pearl ring is sure to catch the eye of everyone in the room. Set in 18K gold with vibrant and rare color-change garnets and diamonds, this pearl's luster is reminiscent of the waters from which it emerged. The garnets change in color from magenta purple to teal green, which is a perfect match for this pearl, which has a magenta body color and green overtone.
