EXTRA EXTRA!

**Scottsdale Beach Club** is on the horizon and will be the first of its kind when it opens in summer 2012. Not only will it have private plunge pools, a poolside taco bar and Arizona's largest LED video screen, but also a floating stage overlooking the pool to play host to deejays and live music. And the best part of all? The club will be open to the public - no membership and no hotel affiliation required.
