EXTRA EXTRA!

Xavier College Preparatory High School is building a new Founders Hall. We heard that the Founders Hall will be the 77,000 SF and at the heart of Xavier's 10-acre campus. The hall will feature a dining hall, student club meeting space, classrooms, chapel, and an elevated walkway to the existing campus. What could be better? Oh wait- it even will have a charging stations for students to recharge their mobile computing devices. Here are some pictures of the construction so far, looks like it will be finished in no time!
