EXTRA EXTRA!

Today, we got a sneak peak at the Dream Center. [What is the Dream Center?](#)

10 inspiring rooms were designed for suffering victims of sex slavery by a team of gracious, [Valley interior designers](#) who dedicated themselves to this life-changing project. The rooms were specifically designed to rehabilitate and heal those who were put in these harsh circumstances.

Each room will be featured in our "Best Places to Live" September issue of *Arizona Foothills Magazine*. We are so proud to be involved with this project- we decided to post images of each room on our website for a Dream Center Voting contest. Keep on AZFoothills.com for updates on contest details.

Thanks to all the [designers](#) and [Desert Star Construction](#) who took the Dream Center to new heights and are making a difference in the lives of these young women.
