EXTRA EXTRA!

Arizona Foothills Magazine couldn't believe their eyes when we saw these pictures and got word about the newest and latest trend in China. China's wealthy class have been transforming their pets into miniature versions of animals or just dyeing them bright colors.

However, Pandas seem to be the biggest hit and a favorite. It has become a huge industry and people are spending thousands on professional hair dyes, salon cuts and accessories!

What do you think of this trend? Would you do this to your pet? We want to know!
