The Sterling Collection at Silverleaf, a luxury condo home community in Scottsdale, is set to debut its sales gallery and model home next week. The Grand Opening weekend is set for January 17 and 18 from 10 a.m. to 5 p.m. It is open to the public (but reservations are recommended). Prospective buyers can tour the model, view floor plans and finishes and make a reservation to purchase.

A few interesting things:

This is a \$350-million development (one of the largest luxury residential projects in the Southwest).

This is the most high-end condo community to ever be developed and sold in Ariz. 213 luxury condos priced from the low \$1 million.

First Robotic Valet system in Ariz. and on the West Coast.

Private elevators open directly into each home.

LEED certified (aiming for silver level).

Owners are extended a private invitation to the elite, members-only Silverleaf Club.
