[USO Arizona](#) continues to support military service members and their families with interactive entertainment through the [USO's Military Virtual Programming \(MVP\)](#), a series dedicated to positive, uplifting digital engagements for troops and military families. As part of USO MVP, celebrities and partners around the world conduct virtual base visits, engage in live discussions, offer live performances and make one-on-one calls with service members. MVP programs also include pre-screening events, classes, Q&As and more in a wide variety of topics for military spouses, transitioning service members and military kids.

On Monday, April 26 at 5:00 p.m. PDT, USO Arizona will host a virtual cookie demonstration and live Q&A with Golden Globe award-winning actress and best-selling author Valerie Bertinelli, along with her friend Nemo Tsai of Kids Baking Championship for military families in honor of Month of the Military Child, celebrated annually during the month of April. About 50 military families will participate in the virtual cookie demonstration and live Q&A, which is part of the 2021 MVP series.

In addition to the MVP virtual event, the USO at Fort Huachuca, which celebrated its one year anniversary in December 2020, recently welcomed staff and service members from the United States Army Intelligence Center of Excellence (USAICoE) for a cooking demonstration on how to make several meals in a short time period. Over 20 service members were able to participate in the interactive demo held in the demonstration kitchen at Fort Huachuca. The demonstration kitchen is an interactive tool where members of the military can take cooking classes and enjoy meals on base.
