Get ready for some stares on the road, because the Mercedes ML450 is one mid-sized SUV that can not be overlooked. Sleek on the outside and environmentally friendly on the inside, this SUV is definitely the "it" ride for summer.

This summer, no other luxury SUV owns the road like the Mercedes ML450. Its suave exterior frame, emblazoned with the Mercedes symbol on the front, and buttery leather seats mixes style and comfort. Since nothing beats having a surefire escape from the Valley's heat, the Mercedes ML450's air conditioning will cool you down, while heating up the roads of the Valley. This SUV does much more than just transport to where you need to go; it makes you feel like you're riding in first-class every single day. Plus, the new hybrid option makes this vehicle even more enticing due to its environmentally friendly status, and superb fuel economy ratings. In addition the hybrid engine results more money in your pocket and less in the tank.

Providing seating for up to five adults, combined with a 21 miles per gallon on the highway, makes the Mercedes ML450 is the ideal vehicle to take on road trips with friends. Also, while on that trip, this SUV has your entertainment covered. The Mercedes ML450 has a six-CD changer, which comes standard, and offers the options of adding an IPOD/MP3 interface or SIRIUS satellite radio to your package. But, before the road trip departs, you might have to set some ground rules to keep your guests' excitement in check when first experiencing the Mercedes ML450. For example, no sticking their heads out the fabulous sun roof no matter how fun it looks, or to not pose for in the rear-view camera just to appear on the screen. Perhaps, warn against singing too loudly especially when the surround-sound system is already pumped up to its maximum of 610 watts. When it comes to creating this luxurious accessory, your wish is their command due to the build-your-own vehicle options. You have the power of choice through individual preferences which allow you to mold your ideal Mercedes ML450. These include choices of color, interior and special features that make your Mercedes ML450 one-of-a-kind.

To pick up this summer's most luxurious accessory check out the Phoenix Motor Company for more information about how to take one of these beauties home at a \$55,000 starting price tag. Phoenix Motor Company, which was voted the Best Mercedes Dealership in the Valley, is the go-to spot for help in acquiring the Mercedes of your dreams. www.phoenixmercedesbenz.com
