Style Stalkers is a delicious monthly fashion blog created to inspire the fashionably inclined along with those who want to be savvy or just don't have the know-how. The blog is geared toward women and men who are apposed to the typical, although can appreciate the lifestyle of being unique, artistic, dynamic, glamorous and cool.

While showing you innovative and stylish street fashion, Style Stalkers will also keep you posted on editorials that include emerging designers and boutiques inside and out of the AZ area. Style Stalkers' motives are to use and bond the rather small, although growing, local fashion community to create what you would call a fashion mayhem, ultimately bringing out the best style in you.

Join Style Stalkers at their official launch party and share the love for fashion, the light, and the community's creativity.
