EXTRA EXTRA!

The Container Store®

The Original Storage and Organization Store®

Every time we are in an organization crisis, the friendly staff at The Container Store are always so friendly and helpful. It's no surprise then that they've been named to Fortune Magazine's list of "100 Best Companies to Work For" for the 13th year in a row! What an accomplishment. This year they hold number 22 on the list.

The placing is determined by an employee survey that accounts for two thirds of the score. Since it opened in 1978, the company has really treated their people right, having never resorted to layoffs in its 33 year history. Considering the tough economic times, that's extremely impressive. Congratulations and well deserved!
