Wet 'n' Wild Phoenix is collecting water this month during its Fourth Annual Water Drive with Water For Our World (WFOV). The popular water park will offer \$10 off general admission to guests who donate a case of bottled water (24-plus bottles). Guests may drop their cases of water at the front gate redemption area and receive a coupon for the discount. One discount per case of water donated.

WFOV provides immediate drinking water in times of health and weather crisis in the United States. Locals and those across the nation who will benefit from this drive include those experiencing homelessness, the home-bound and victims of natural disasters.
